

This year we have two globally renowned speakers: consultant ophthalmologist Mr Gus Gazzard from Moorfields Eye Hospital will be our keynote speaker, and he will be sharing news of the LiGHT trial (Laser in Glaucoma and Ocular Hypertension Trial). This is the largest ever study to look at the treatment of people newly diagnosed with glaucoma, and the results could potentially improve the way glaucoma is treated across the world. David (Ted) Garway-Heath, IGA Professor of Glaucoma and Allied Studies at UCL, will bring us up to date on his latest research.

Programme for the Day

13:00 – 13:30 **Annual General Meeting**
Professor Philip Bloom, IGA Chairman

2018 Annual Lectures

14:10 – 14:15 **IGA overview of the year**, Karen Osborn CEO

14:15 – 14:45 **Professor David (Ted) Garway-Heath**
IGA Professor of Ophthalmology for Glaucoma and Allied Studies

14:45 – 15:15 Tea & Coffee break

15:15 – 16:15 **Keynote lecture by Mr Gus Gazzard**
'The LiGHT Trial' (Laser in glaucoma and ocular hypertension)

16:15 – 17:00 **Question Time with the experts**
Professor Philip Bloom in the Chair, plus Prof Ted Garway-Heath, Mr Gus Gazzard, Prof Anthony King and Dr Susan Blakeney

17:00 – 18:30 **Drinks Reception**
